

Maxon Parallel Panel System

maxon Parallel[®] Panel System

Versatility and value, all in one!

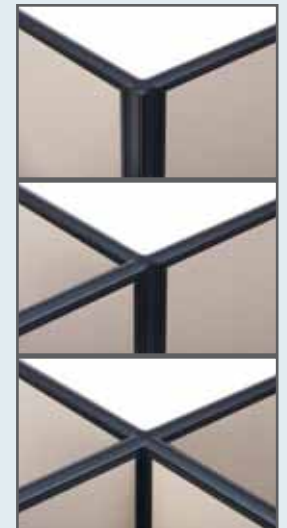

- Creates simple or sophisticated cubicles, call centers and reception stations.
- Streamlined 2" thick aluminum frames save space yet lock together to create solid workstations.
- Segmented panels add design flair.
- Money-saving options can reduce cost (e.g., tackable vs. non-tackable surfaces, raceway vs. non-raceway panels, multiple fabric grades and storage choices).
- Innovative universal connector post for all corner connections makes installation and reconfiguration quick and easy.

Parallel is Easy to Assemble

The Slide-In Extrusion Post creates 180° straight connection

The Universal Connector Post creates 90° "L" corners, 3-Way "T" corners and 4-Way "X" corners

Overhead Storage
Overhead cabinets and shelves meet the storage needs of every department in your organization.

Inspirations

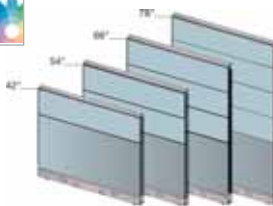

Your Guide to the Perfect Office

Maxon Inspirations is a simple four-step process that we will use to help you create the perfect office for your organization. This foolproof system employs visual aids to make decision-making easy. Then, our professional space planners will develop a customized space plan to fit your needs and budget.

1. Select a **Workstation Typical** for each department in your organization.

2. Add **Design Details** that customize your workplace to meet your needs.

3. Select a **Product Line** to fit your style.

4. Choose **Color Palettes** to match your office interior and organizational image.
